

**Don E. Brown, AIA**

Vice President

Don Brown, a Vice President of Gideon Toal, has over 32 years of architectural experience. Don specializes in industrial, manufacturing and aviation projects. In addition, Don focuses on collaborative projects for which Gideon Toal is the Architect of Record.

Don's expertise includes cost and time estimating, client communications and quality control review of production drawings. He educates production staff on current construction materials and methods, monitors established production procedures to ensure compliance by job captains and draftsmen, aids project architects as needed in technical aspects during schematic design and design development and supervises project specific production work.
